

Shridhar Pandey – Software Engineer | Java, Spring Boot, React, AI

Mumbai, Maharashtra, India

+91 8104810125 | shridharpandeyofficial@gmail.com | <https://linkedin.com/in/shridev> | <https://github.com/shridev>

Summary

Software Engineer with two years of full-stack Java experience, specializing in migrating legacy architectures and integrating local AI models into secure enterprise systems. Passionate about building scalable, developer-friendly tools and optimizing infrastructure to solve complex business bottlenecks.

Skills

Backend: Java 8+, Spring Boot, Spring Framework, Hibernate, JDBC, Maven/Gradle, REST APIs, WebSocket

Frontend: React, Angular, Next.js, TypeScript, JavaScript (ES6+), Shadcn/UI, Tailwind CSS, HTML5, CSS3

DBMS: Microsoft SQL Server, MySQL, PostgreSQL, Redis

AI Integration: Spring AI, Ollama, Retrieval Augmented Generation (RAG), Prompt Engineering

Cloud: Azure (Virtual Machine, Blob Storage), AWS (EC2, S3)

DevOps: Docker, Docker Compose, Git, GitHub Actions

Experience

Associate Software Engineer | Inspiroz IT Services Private Limited, Navi Mumbai | Oct 2024 – Present

Inspiroz Insights – Visualized Insights for US Charter Schools | Java, Spring Boot, Node.js, Redis, MSSQL, React.js

- Migrated a legacy Node.js backend to a highly scalable Spring Boot architecture.
- Engineered an AI-driven chart generator that translates user prompts into interactive, CRUD-enabled visualizations.
- Developed an in-house UI component library, reducing dashboard boilerplate code from over 1,000 lines to under 10.
- Designed a global Redis and Cron Job Manager to validate and renew cached key-value pairs efficiently.
- Containerized the application using Docker Compose to improve portability and maintainability.
- Automated Ubuntu Server deployments via GitHub Actions, reducing deployment time by 80%.

Inspiroz AI – Private AI Sales and Support Assistant for US Charter Schools | Ollama (llama3.2:3b), Dify (Self-hosted)

- Self-hosted Dify and Llama 3.2 (3B) on Ubuntu to build custom client chatbots and knowledge bases.
- Configured the AI assistant to resolve user queries based on proprietary data and automatically schedule client meetings.
- Embedded the chatbot across client websites, resulting in an average 30% increase in school enrollments.

Projects

PureStream – Java ETL Engine | Java, Maven | [Maven Central Repository](#), [GitHub](#) | April 2026

- Built a zero-dependency Java ETL processing 10M+ records under 40s with a constant memory footprint.
- Published a fluent API to Maven Central featuring relational algebra operations and automated JSON flattening.
- Built native CSV and JSON read/write support, providing developers with a streamlined tool for rapid data transformations.

inDistant – Space for Couples | Next.js, Shadcn/UI, PostgreSQL, Ably Realtime | [Visit](#) | November 2025 – Present

- Built a real-time relationship app using strict 1-to-1 pairing for exclusive digital connections.
- Implemented live presence tracing, typing indicators, and instant messaging architectures using Ably Realtime.
- Integrated Service Workers and the Notification API to ensure reliable, real-time message delivery.

Intelligentable – UI Component Library | React, TypeScript, Ant Design | [NPM](#), [GitHub](#) | May 2025 – December 2025

- Architected a highly customizable React component, achieving over 3,000 downloads on NPM.
- Extended Ant Design's Table component with built-in search, sort, filter, and export features.
- Enabled element-level theme customization to maximize adaptability across diverse frontend architectures.

Education

B.Sc. in Computer Science | University of Mumbai | [Marksheets & Certificate Link](#) | June 2021 – April 2024

HSC | Maharashtra State Board | [Marksheets & Certificate Link](#) | April 2019 – February 2021

SSC | Maharashtra State Board | [Marksheet & Certificate Link](#) | April 2017 – March 2018

Certifications

Java Foundations Professional Certificate by JetBrains | LinkedIn Learning, JetBrains | [Link](#) | March 2026

Docker Foundations Professional Certificate | LinkedIn Learning, Docker | [Link](#) | March 2026

Certification Program in Java Full Stack Development | EduBridge, Capgemini | [Link](#) | April 2024 – July 2024
